## Professional Profile

FullStack web developer with experience in developing applications and websites using the MERN stack and other technologies. I stand out for my ability to lead projects, solve complex technical problems, and create efficient solutions. Additionally, I have an advanced level of English, which facilitates collaboration in international environments.

## Professional Experience

**01/2025 | Note:It**

**FullStack web developer**

Developed a full-stack web application for efficient note management. The frontend was built with React, Tailwind CSS, Redux Toolkit, and Framer Motion, while the backend used Node.js, TypeScript, Express, and MySQL managed with Prisma ORM. Implemented authentication with bcrypt and deployed the project using Railway (database), Heroku (backend), and Netlify (frontend).

**06/2024 – 12/2024 | StorePC**

**Project Leader**

Project leader for a team of three developers. I was responsible for developing the entire backend and frontend logic for API consumption. Used MongoDB Atlas, Express, React, and Node.js.

**08/2024 – 12/2024 | ALFATEAM**
